## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment after final filed September 12, 2006 has been entered and claims 1 and 2 have been cancelled.

### ***Allowable Subject Matter***

2. Claims 3-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a solid state imaging device comprising a buried region of a first conductivity type that is formed in a pixel-forming region and that includes a first partial buried region and a second partial buried region, the first partial buried region formed at a relatively deep position and having a relatively low impurity concentration, the second partial buried region formed at a relatively shallow position and having a relatively high impurity concentration, the second partial buried region being an accumulation region. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to yield the device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.

Art Unit: 2826

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915.
